

## Activity report

### FIELD TRIP TO AMERICAN CENTER (11.11.2022)

American Center, Kolkata had organised a very useful programme for the students for spreading awareness regarding harmony among all nations. It was a small theatrical performance mixed with dance and music involving young actors from India, Bangladesh, Nepal and USA. Participants from our college enjoyed the performance and the needful message was beautifully delivered to them by the show. They had also interacted with the director and actors after the performance were over. The field trip turned out to be a successful venture.

Some glimpses of the event are as follows,
