

Report on the Orientation Programme for the Academic Session 2025-26

Date: August 29, 2025

Venue: Rooms 5, 6, and 7A, City College

A comprehensive Orientation Programme was successfully organized on August 29, 2025, to welcome the newly admitted students for the academic session 2025-26. The event was held across Rooms 5, 6, and 7A and was designed to familiarize the new entrants with the college's culture, regulations, and academic environment.

The programme commenced with an inaugural address by our esteemed Principal, Dr. Sital Prasad Chattopadhyay. He extended a warm and heartfelt welcome to all the new students, congratulating them on securing admission to the institution. In his inspiring speech, Dr. Chattopadhyay emphasized the college's commitment to academic excellence and holistic development. He encouraged the students to be dedicated, inquisitive, and to make the most of the opportunities provided to them during their time at the college.

Following the Principal's address, esteemed professors from various departments took the stage. They introduced their respective faculties and departments, providing a brief overview of the curriculum, teaching methodologies, and the scope of their subjects. Their words were encouraging, aiming to build a strong rapport between the faculty and the new students from the very beginning.

A special session was dedicated to the heart of the academic institution – the library. The college Librarian, Dr. Nitai Raychoudhary, delivered an informative talk on the City College library. He provided a basic but thorough introduction, outlining the library's rules and regulations to ensure a conducive study environment for everyone. Dr. Raychoudhary detailed the library timings and explained the process of borrowing books and accessing other valuable resources. His session was crucial in highlighting the library's role as a vital partner in the students' academic journey.

To provide a practical experience, the students were then taken on a guided visit to the library. During this tour, the new students had the opportunity to see the vast collection of books and resources firsthand. They were also formally introduced to the other library staff members, who welcomed them warmly and assured them of their support.

The Orientation Programme concluded on a positive and happy note. It was successful in its objective of seamlessly integrating the new students into the college community, leaving them feeling confident, informed, and excited to embark on their new academic chapter.
