Brief report: In our population a plethora of blood - diseases are found where the patients need continuous supply of blood throughout their life. Apart from this, blood is also required during many emergency medical situations like pregnancy, accident etc. It is such a valuable biological product that can neither be manufactured, nor can be stored for a long time. The department of Zoology, City College, Kolkata in association with Birati Ichhedana Society arranged Blood donation camp at a regular basis. This camp was arranged in the Thalassaemic Guardian Association on 12th March, 2023. The collected blood is offered to the Thalassemic children. Being eligible volunteers, many current as well as ex students, young teaching and non teaching staffs of the college donated blood with a great enthusiasm. Sufficient number of volunteers from various status of the society also donated blood on behalf of Ichhedana. Children and young members of Ichhedana performed drama and music programme to motivate the audience for participating in such volunteer blood donation camp. Teachers of City College and members of Ichhedana also interacted with the children and young patients of thalassamia present in the camp to understand their physical and mental problems. The Camp ended with greeting ceremony where each donor and patients were gifted with flower plants and decorated cards made by the volunteers of Ichhedana.
