6. Suran Aini 10.2.23
7. Rupraj Mohapatra 10/2/23
8. Anantara Pat 10.2.23

Principal took the chair at 1.05 pm.

Sub-Committee members requested Principal for setting up a Central instrument facility at City College. Members intimated that ~~there~~ there are several overlapping practicals in different streams of science. So, it will be economically beneficial for the college if different departments can use instruments from a common facility, rather than purchasing the same instrument in each department. Furthermore, students will also be benefitted if they ~~have access~~ get exposure to different instruments used in ~~the~~ allied subjects. Principal informed the members that there are no extra rooms at present which can be used for this purpose, as City College shares their college campus with two other colleges. The college is in the process of acquiring the old hostel building from C.V. Once it is acquired and renovated, a separate room will be allotted for Central instrument facility.

The meeting ended with thanks to the chair.
